DETAILED ACTION

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

All non-elected claims have been canceled (i.e., Claims 1-7, 28-44 and 70, 74, 75, and 77).

With regard to claims 70, 74, 75 and 77, these claims were drawn to non-elected species (double cathode) and are replete with 112, 2nd rejections.

For example: 74. The method according to claim 73 wherein the electron management system comprises a feature selected from the set consisting of electrode surface treatments and the use of low secondary electron emission metals to reduce secondary electron formation.

The above claim is indefinite as it is open-ended and closed-ended. Thus the meets and bounds of the claim cannot be ascertained.

Applicant may correct said claims 70, 74, 75 and 77 and if consistent with the prior amendment of 4/21/2004 may submit such for entry.

Allowable Subject Matter

2. Claims 68, 69, 71-73 and 76 allowed.

3. The following is an examiner's statement of reasons for allowance: As set forth in the amended claims and arguments of 4/21/2004 no prior art of record provides for the

method of producing neutrons in a high-pressure high-resistance gaseous discharge double cathode environment wherein electron flow is selectively limited.

This statement is not intended to necessarily state all the reasons for allowance or all the details why the claims are allowed and has not been written to specifically or impliedly state that all the reasons for allowance are set forth (MPEP 1302.14).

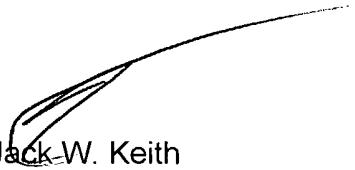

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The cited prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack W. Keith whose telephone number is (703) 306-5752. The examiner can normally be reached on Monday-Thursday 6:30-5 p.m., with Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Carone can be reached on (703) 306-4198. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
